

HERBICIDE/DEFOLIANT

SAME GREAT PERFORMANCE LOWER USE RATES

ET[®]X herbicide/defoliant provides cotton growers the same defoliation performance they have come to expect with ET herbicide/defoliant, but at lower use rates.

Key Benefits of Using ETX in a Defoliation Program

- Proven leaf drop activity on both mature and immature foliage
- Industry leading performance for regrowth removal
- Maintains top performance in both cool and warm conditions, taking the guess work out of defoliation
- Aids in boll opening through natural ethylene production
- Fast performance allows producers to more accurately time their harvest and protect quality
- Provides preharvest weed control, reducing lint trash and improving harvest efficiency
- Low cost per acre

CONVERSION CHART

APPLICATION RATE PER ACRE

CONVERT FROM	TO
